

# GDR655

Superior Traction • Longer Mileage

Drive

## Overview

<b>Rim Sizes:</b> 22.5	Features	Benefits
<b>Aspect Ratio:</b> 0-80mm	Specially arranged block and sipe angle	Enhanced traction driving performance
<b>Section Width:</b> 279-315	Four belt construction	Increases casing and tread stiffness, minimizing tire deformation for longer wear
<b>Speed Rating:</b> L-M	Advanced Equal Force Casing technology	Uniform force distribution enables optimal tire footprint at various loads level thus result in regular tread wear
	Widened tread width design	Large tread volume area for extended wear life
	Extended tread depth	Higher tread volume for longer mileage driving capabilities
	Giti specially-formulated tread compound	Improved wear resistance of tread
	Unique inter-dependant blocks at tread pattern center	Limits block movement, effectively reducing abnormal wear
	FEA bead construction with bead optimization	Optimizes and uniformly distributes load pressure to the bead, minimizing damage

## Giti - GDR655 offers 4 different tyre sizes

	Tire Size	PR	Load Index	Speed Rating	Approved Rim	Outer Diameter (mm)	Tread Depth (mm)	Max Load(kg)	kPa	PSI
